## 5.2 Process for Locked DN Cancellation:

### Narration

Sr. No.	Responsibility	Process / Activity	Output
SM-WH-14.6	WHI	<p><b>Trigger:</b> This process shall be initiated in case any incorrect DN is created in system and the DN has already been locked.</p> <p>After identification of incorrect DN, WHI shall request cancellation through warehouse application along with reason for cancellation.</p> <p>A system based workflow alert will be sent to respective RDM for review and action.</p> <p>In case of TPSI DN: WHI will also share picture/scan copy of Watch &amp; Ward register "TP Support Docs" for In/Out of vehicle in case of loading from WH floor to ensure that vehicle is not gated out from WH premises. This supporting document will be sent by WHI to concern RDM and DSM via separate email.</p> <p>Ref. to Annex – B (format for DN cancellation request)</p>	DN Cancellation request to RDM
